— ABOUT SJ —

The moment no one in the room can explain

There is a particular silence that falls just before a room realises it has seen something impossible. Creating that moment, again and again, for over twenty years, is what SJ does.

A magician, mentalist and hypnotist, and a Member of The Magic Circle, he works close-up and on stage, weaving magic and mind-reading into something guests feel as much as watch. The kind of wonder people carry home and talk about for years.

It is little surprise that American Express, Rolex, Bicester Village and The British Army have welcomed SJ in front of their guests, alongside private and celebrity clients across the UK and internationally. Every performance is shaped with care around your event and your audience, so every guest feels it was meant for them.

SJ accepts a limited number of private and corporate engagements each year, and would be delighted to hear about yours.
