THE EXPERIENCE

A celebration your guests never forget

Some moments are too important to leave to chance. Whether it is the day you marry, a milestone birthday, or a private gathering of the people who matter most, SJ brings world-class close-up magic and mind reading directly to your guests, at arm's length and in their own hands.

No stage, no distance. The effect is immediate. Strangers become a crowd, conversation finds its rhythm, and the evening lifts. Every performance is shaped around the occasion and the people in the room.

PRIVATE EVENT PACKAGES

Three ways to work together

Each package is tailored to your celebration, whether a wedding, a birthday, or a private dinner.

The Forever Package VIP

Magic threaded through the celebration, drawing every guest together. SJ moves through the room and from table to table, performing close-up for each group. A second, bespoke piece is built around your own story and, for weddings, choreographed with your photographer and videographer so the day is captured as it unfolds. It closes with a bespoke trick that leaves you with something to keep for life. Personal, seamless, and unlike anything your guests have seen before.

Mingle & Dine

The complete close-up experience, covering the event from the first drink to the final course. It opens mix-and-mingle style during the reception, moving among guests to warm the room, then continues table to table through dinner, stopping at each group for a moment of genuine amazement. Professional and timed to the schedule, yet relaxed and personal throughout.

Simply Magic

Close-up magic during reception drinks or table to table, a blend of magic and mind reading performed in a warm, engaging manner. The ideal way to capture photographs, build atmosphere, and set the celebration off to the right start while your guests are looked after throughout.

— ABOUT SJ —

The moment no one in the room can explain

There is a particular silence that falls just before a room realises it has seen something impossible. Creating that moment, again and again, for over twenty years, is what SJ does.

A magician, mentalist and hypnotist, and a Member of The Magic Circle, he works close-up and on stage, weaving magic and mind-reading into something guests feel as much as watch. The kind of wonder people carry home and talk about for years.

It is little surprise that American Express, Rolex, Bicester Village and The British Army have welcomed SJ in front of their guests, alongside private and celebrity clients across the UK and internationally. Every performance is shaped with care around your event and your audience, so every guest feels it was meant for them.

SJ accepts a limited number of private and corporate engagements each year, and would be delighted to hear about yours.
